Flutianil team- we will go over the current presentation for Mike Goodis. The briefing is scheduled for June 12 (rescheduled from 5/31). The Presentation is attached for your review.

We will also discuss the CBD comments to the NOR/NOF and the EFSA review that is mentioned. We should be prepared to discuss the basics of the comments during the briefings that are upcoming.

We are hoping to hold these comments and respond to them in the Final Decision Document as more comments are expected from the public. We would mention that we received these comments in the Proposed Decision Document and will response after the comment period has closed. The comment document and referenced EFSA review are attached.
